

UR-280

Dual Channel Diversity Wireless Microphone

A decorative graphic consisting of numerous thin, overlapping blue lines that create a sense of motion and depth, resembling a stylized wave or sound wave. The lines are more densely packed in some areas, creating darker shades of blue, and more sparse in others, creating lighter shades.

Operation Menu

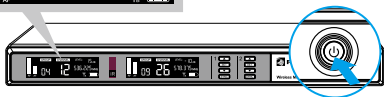

ON/OFF

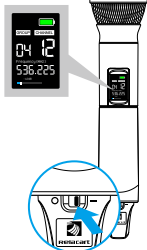

UR-280

Short press [ON]
Long press [OFF]

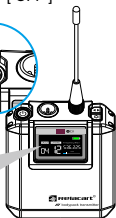

UH-280

Short press [ON]
Long press [OFF]

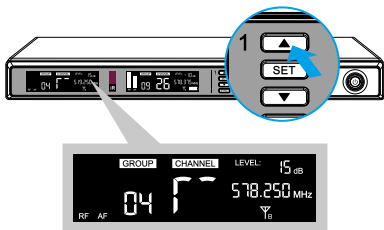

OFF ↔ ON

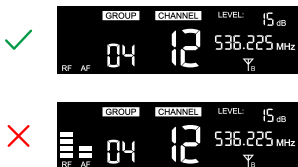

UT-280

AFS Automatic Frequency Search

Long press [▲]

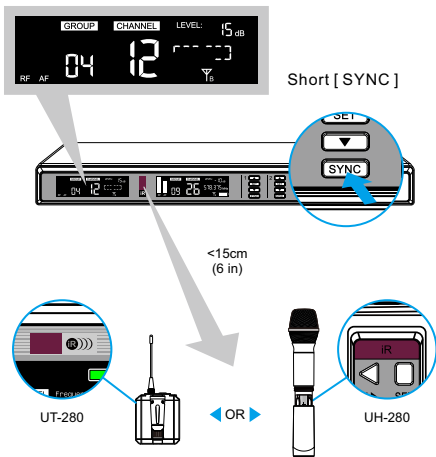

When searching for a channel, the frequency changes simultaneously according to the channel.

0 grid on the RF indicates the frequency is clean.
If not, please repeat this operation.

SYNC Frequency Synchronization

Note: When iR infrared binding, the handle of the handheld microphone must be unscrewed. Otherwise, the binding function will be affected.
