

R-32U | DIRECTIONAL ANTENNA

Description

R-32U has the characteristics of reliable performance durable, which can provide the best receiving effect in the required coverage. The gain setting is used to enhance the signal reception. The R-32AU/R-32U can be fixed to the microphone stand or suspended from the ceiling, or it can be fixed to the wall using the integrated rotatable stand.

Product Specification

Antenna Frequency Range:	470MHz~950MHz
Antenna Directionality:	Cardioid
Antenna Polarization Mode:	Line
Antenna gain:	≥6.5dB
Antenna Standing Wave Ration:	<2
Connector Port:	BNC female
Dimensions (mm):	332(L)×304(W)×3(H)
Weight:	Approximately 715g
